

SMARTBRIDGE
Let's Bridge the Gap

Scalability and future plan

Date	28/06/2026
Team Id	
Project Name	Smart Lender
Maximum Marks	1 Mark

Scalability and Future Plan:

Scalability and Future Plan describes how the Smart Lender system can be expanded and improved in the future. It focuses on enhancing system performance, supporting more users, integrating advanced technologies, and adding new features to make the application more efficient, reliable, and scalable.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address
1	Prediction depends on training dataset quality.	May reduce prediction accuracy.	High
2	No real-time bank database integration.	Cannot verify live applicant records.	Medium
3	Limited applicant parameters.	Prediction can be improved with more features.	Medium

Scalability plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy on cloud with load balancing
2	Data Storage	Local CSV Dataset	Use MySQL/PostgreSQL Database
3	Performance	Local Processing	Optimize ML model and server

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
4	Security	Basic Validation	Add Authentication & Data Encryption

Future Road Map:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase-1	User Login & Registration	Next Release	Secure access
Phase-2	Real-time Credit Score API	Future Version	Better prediction accuracy
Phase-3	Bank Database Integration	Future Version	Faster loan verification
Phase-4	Cloud Deployment	Future Version	High scalability
